1.1 Study Skill Tips for Success in Mathematics CYU

Read each question carefully.

1. What is your teacher's name?
2. What are your teacher's classroom location and prep hours?
3. What is one way to contact your teacher?
4. Do you have the name and contact information of at least one other student in your class? If yes, whom? If no, get one!
5. Is there a tutoring time available for this class? If yes, when?
6. How did you feel about Algebra 1?
7. How did you feel about Geometry or Honors Geometry?
8. List some things that worked best for you in your previous high school math classes.
9. List some steps that you can take if you begin having trouble understanding the material or completing a CYU.

10. Where can you find additional practice exercises?

11. Where are the answers to CYU's?

12. Chapter Highlights are found at the end of each chapter. Find the Chapter 1 Highlights and explain how you might use it and how it might be helpful.

13. Chapter Reviews are found at the end of each chapter. Find the Chapter 1 Review and explain how you might use it and how it might be helpful.

14. Chapter Tests are found at the end of each chapter. Find the Chapter 1 Test and explain how you might use it and how it might be helpful when preparing for an exam on Chapter 1.

CYU Reflection: *How far can you go: basic, intermediate, or advanced?*

Rate your mastery level!

How confident are you with the skills this CYU covered? Circle the score you would give yourself.
