## 2.1 Write and Graph Inequalities

Learning Outcomes: I can write inequalities from graphs or sentences.

I can graph inequalities.

### EXPLORATION 1 Writing and Graphing Inequalities

Work with a partner. Write an inequality for each statement. Then sketch the graph of the numbers that make each inequality true.

a. Statement The temperature  $t$  in Sweden is at least  $-10^\circ\text{C}$ .

Inequality  $t \geq -10$  ↳ lowest

b. Statement The elevation  $e$  of Alabama is at most 2407 feet.

Inequality  $e \leq 2407$  ↳ highest

Sep 20-9:11 AM

#### ATTENDING TO PRECISION

To be proficient in math, you need to communicate precisely. You also need to state the meanings of the symbols you use.

### EXPLORATION 2 Writing Inequalities

Work with a partner. Write an inequality for each graph. Then, in words, describe all the values of  $x$  that make each inequality true.

- includes endpoint ( $\leq, \geq$ )
- no endpoint ( $<, >$ )

True?

Tell whether  $-4$  is a solution of each inequality.

a.  $x + 8 < -3 \rightarrow -4 + 8 < -3? \quad 4 < -3 \quad \boxed{\text{no}}$

b.  $-4.5x > -21 \rightarrow -4.5(-4) > -21$   
 $18 > -21$   
 $\boxed{\text{yes}}$

Sep 20-9:18 AM

# LOL

letter on left

Then the inequality points the direction you should shade, but if you need to switch you **MUST** switch EVERYTHING!

**Examples:** Graph each inequality.

a)  $y \leq -3$

b)  $2 < x$

c)  $x > 0$

**Practice:**

Graph the inequality.

7.  $b > -8$

8.  $1.4 \geq g$

$g \leq 1.4$

9.  $r < \frac{1}{2}$

10.  $v \geq \sqrt{36}$

## 2.1 Writing & Graphing Inequalities with work

- 1) The graphs show the height restrictions  $h$  (in inches) for two rides at an amusement park. Write an inequality that represents the height restriction of each ride.

- 2) Write both inequalities in **set builder notation**:
- A  $h \geq 48 \dots \{h \mid h \geq 48\}$  ← such that
- B  $h < 52 \dots \{h \mid h < 52\}$

Sep 20-9:23 AM

Write an inequality:

- 1)  $2n + 5 \geq 10$   
 Twice a number increased by 5 is not fewer than 10
- 2)  $2(x+5) \leq -8$   
 Twice the sum of a number and 5 is at most -8
- 3)  $\frac{1}{2}x - 7 > 20$   
 Half a number decreased by 7 is more than 20
- 4)  $a \geq 16$   
 Your age has to be at least 16 to get a drivers license

Sep 20-9:24 AM

## 2.1 Writing & Graphing Inequalities with work

HW: pg. 58

A: 2, 4, 8, 12, 14, 22 - 28(e), 35, 36, 40, 44 - 50(e), 54, 60 - 66(e)

B: 1, 2, 4, - 44(e), 60 - 66(e)

C: 1, 6, 10, 14, 16, 22, 26, 28, 30, 32, 38, 40, 42, 44, 60
