2.4 Problem Solving DAY TWO CYU
$\square$ Use when you get it right all by yourself
$\boldsymbol{S}$ Use when you did it all by yourself, but made a silly mistake
HUse when you could do it alone with a little help from teacher or peer
$\boldsymbol{G}$ Use when you completed the problem in a group
$X$ Use when a question was attempted but wrong (get help)
$N$ Use when a question was not even attempted

| CONCEPTS | BASIC | INTERMEDIATE | ADVANCED |
| :--- | :---: | :---: | :---: |
| Next Integers | 1,2 | 5,6 | $3,4,7-12$ |
| Sum of consecutive integers | 1,2 | 5,6 | $3,4,7-12$ |
| Simplifying Expressions | 1,2 | 5,6 | $3,4,7-12$ |

1-8: Fill in the table provided.

| Question | First Integer | Next Integers |  | Indicated Sum, Then |
| :---: | :---: | :---: | :---: | :---: |
| 1. three consecutive integers | Integer : x | $\mathrm{x}+1$ | $x+2$ |  |
| 2. three consecutive integers | Integer: x |  |  | $2^{\text {nd }} \& 3^{\text {rd }}$ |
| 3. thee consecutive even integers | Even integer: x |  |  | $1^{\text {st }} \& 3^{\text {rd }}$ |
| 4. three consecutive odd integers | Odd integer: x |  |  |  |
| 5. four consecutive integers | Integer: x |  |  |  |
| 6. four consecutive integers | Integer: x |  |  | $1^{\text {st }} \& 4^{\text {th }}$ |
| 7. three consecutive odd integers | Odd integer: x |  |  | $2^{\text {nd }} \& 3^{\text {rd }}$ |
| 8. three consecutive even integers | Even integer: x |  |  |  |

9-12: Solve the word problems for consecutive integers.
9. The left and right page numbers of an open book are two consecutive integers whose sum is 469 . Find these page numbers.
10. The room numbers of two adjacent classrooms are two consecutive even numbers. If their sum is 654 , find the classroom numbers.
11. To make an international telephone call, you need the code for the country you are calling. The codes for Belgium, France, and Spain are three consecutive integers whose sum is 99 . Find the code for each country.
12. To make an international telephone call, you need the code for the country you are calling. The codes for Mali Republic, Cote d'Ivoire, and Niger are three consecutive odd integers whose sum is 675 . Find the code for each country.

13 - 16: Spiral Review from past chapters: Evaluate each expression for the given values.
13. $2 \mathrm{~W}+2 \mathrm{~L}$ when $\mathrm{W}=7$ and $\mathrm{L}=10$
14. $\frac{1}{2} B h$ when $\mathrm{B}=14$ and $\mathrm{h}=22$
15. $\pi r^{2}$ when $r=15$
16. $r \cdot t$ when $\mathrm{r}=15$ and $\mathrm{t}=2$

CYU Reflection: How far can you go: basic, intermediate, or advanced?
Rate your mastery leve!!
How confident are you with the skills this CYU covered? Circle the score you would give yourself.
