

3.2 Properties of Parallel Lines

YOU NEED A PROTRACTOR!!

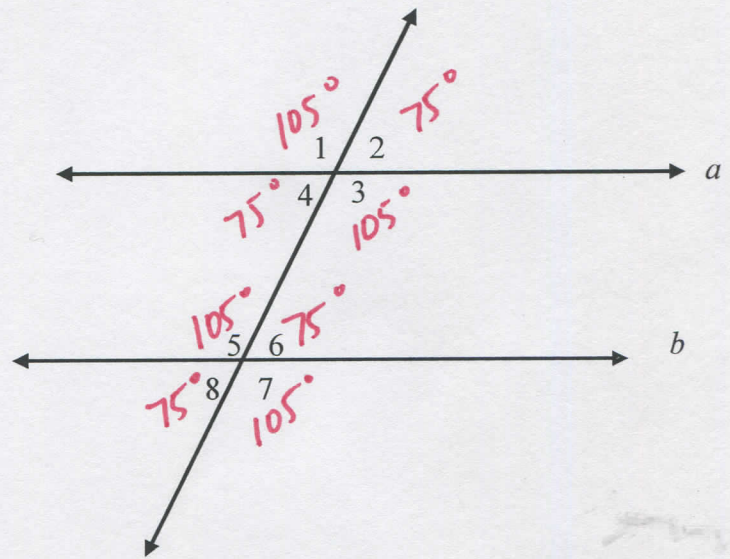

Use a protractor to find each angle measure.

Describe any relationship that you see.

vertical \angle 's
linear pair

Use a protractor to find each angle measure.

Describe any relationship that you see.

intersections are
related!

Theorems & Postulates that you discovered:

- If two lines are parallel, then corresponding angles are \cong .
- If two lines are parallel, then alternate interior angles are \cong .
- If two lines are parallel, then alternate exterior angles are \cong .
- If two lines are parallel, then consecutive interior angles are Supplementary
