

### 8.3 Shifting & Reflecting Graphs CYU

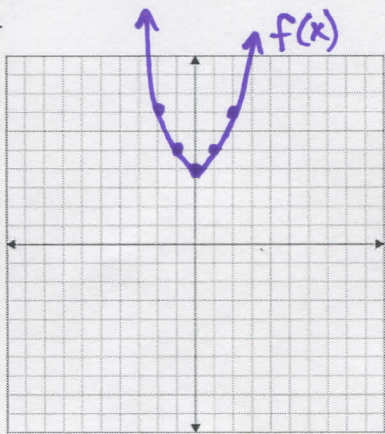

Use when you get it right all by yourself  
*S* Use when you did it all by yourself, but made a silly mistake  
*H* Use when you could do it alone with a little help from teacher or peer  
*G* Use when you completed the problem in a group  
*X* Use when a question was attempted but wrong (get help)  
*N* Use when a question was not even attempted

CONCEPTS	BASIC	INTERMEDIATE	ADVANCED
Graphing quadratics	1, 3, 8		
Graphing absolute value	2, 4, 6, 10		
Graphing radicals		5, 7, 9	
Using the calculator to fill t-charts	1 - 10		
Describing transformations	1 - 4	5 - 10	
Domain and range in interval notation	1 - 4, 6, 8, 10	5, 7, 9	

Sketch the graph of each function (you may use a calculator). Fill in the t-chart provided. Plot those points on the graph provided. Describe the transformation from the parent function. Then state the domain and range.
