Chapter 6 Exponential and Logarithmic Functions Vocabulary List

<u>6.1</u>
Exponential function
Exponential growth function
Growth factor
Asymptote
Exponential decay function
Decay factor
Properties of Exponents
<u>6.2</u>
Natural base
Irrational number
Percent increase
Percent decrease
Compound interest
<u>6.3</u>
Logarithm of y with base b function
Common logarithm
Natural logarithm
Inverse function
<u>6.4</u>
Transformations
<u>6.5</u>
Base

<u>6.6</u>

Exponential equations

Logarithmic equations

Extraneous solution

Inequality

<u>6.7</u>

Finite differences

Common ratio

Point-slope form
